[@lantic select Billion routers](#) | [Print](#) | [E-mail](#)

Monday, 26 July 2010, 11:12

Consumer Internet Service Provider (ISP) @lantic, a subsidiary of Vox Telecom, has announced a partnership with Nology on the Billion product range.

Consumers are now able to purchase the 5200G RC Router for R599.00 (inclusive of VAT) across all of @lantic's 139 franchise outlets. "The 5200G is ideally suited to the SMME market allowing for multiple connections through one router including, phone, fax and internet, making it possible to manage all your communication needs through one router at affordable prices without any compromise on quality," says Jeane van Greunen, head of @lantic Products. "This router has rich firewall security, easy to use functionality and also allows for wireless mobility. It is ADSL2 + compatible and has the ability to downstream speeds of up to 24Mbps," says van Greunen. SMMES and consumers can now enjoy the full serviced telecommunications offering from @lantic including ADSL, dial-up, wireless internet (3G/HSDPA and iBurst), VoIP, PABX and hosting services. Since 2001, moer than 300 000 Billion routers have been sold in South Africa, says Ernst Ohlhoff of Nology, the official distributor of Billion to South Africa. "This demand for the router is testament to its quality and performance."
